

## DIAZ WHISPERS IN ZELAYA'S EAR

Tells Him it Would be Wise to Refrain From Expressing His Opinions Too Freely.

HAS SENSE TO HEED ADVICE.

Mexican Government Has In No Way Officially Recognized Jose Madriz.

Mexico City, Dec. 30.—That President Diaz today gave Jose Zelaya a little friendly advice in regard to talking to newspaper representatives and whispering in his ear that it would be wise for him to refrain from expressing his opinions too freely, was admitted by Zelaya's secretary tonight, when he returned a card to a newspaperman with the remark that the ex-dictator of Nicaragua had just adopted a policy of refusing to be interviewed and would have nothing more to say for publication for six days. Why six days was named he would not explain.

Zelaya called on the chief executive of Mexico today. Up to that time he had received every newspaper man who called at the hotel. After the meeting it was as if a wide gulf had opened between him and the correspondents. In refusing to see one reporter, Zelaya, through his secretary, told him that he wished to avoid being the means of bringing Mexico into the controversy in any way, and that, if further discussed matters, his statements might be misconstrued with such result.

Zelaya's visit to the national palace lasted half an hour. He was received by President Diaz in the green room. The introduction was made by Lieut. Samuel Garcia Cuellar, an aide of President Diaz, and not by the official introducer of ambassadors. The meeting was devoid of official character, and Zelaya was received as a private citizen.

The titular president was accompanied to the palace by Francisco Castelar, Nicaraguan minister, and Roberto de la Sota, son-in-law and formerly chief of Granada.

Zelaya and Diaz chatted for several minutes and then Col. Cuellar accompanied him. It is believed that after Zelaya's introduction Diaz in allowing him to stay on the Mexican ground, the American affairs in general were discussed.

Zelaya was occupied the greater part of the day in driving about the capital, visiting points of interest including the cathedral, the summer home of President Diaz, the drive, the hotel, and the residence of the minister. He was accompanied by Minister Castelar, a friend of the Nicaraguan president, and after he had been in the city for three months, he left for Belgium and at Brussels he personates the education of his children. When he was receiving his education, Zelaya spent much time in Belgium. His parents were of wealth in Nicaragua, and he was educated in Belgium and France. He is fluent command of the Spanish language, and there also he learned English.

Zelaya intends to leave Mexico capital before Sunday, but he cannot be confirmed.

NIAGARA NOT RECOGNIZED  
JOSE MADRIZ OFFICIALLY  
Nicasia, Nicaragua, Dec. 30.—The Nicaraguan government in no way officially recognized Jose Madriz as president of Nicaragua.

A telegram has been passed between President Diaz and President Madriz of a personal character. President Madriz himself does not construe this as a formal recognition of his presidency.

The presidential reception on Tuesday was attended by the official representatives of all nations except the United States. It was very formal and the United States is not represented.

A delegation from Granada today visited Minister Garcia Cuellar and pledged support. State interest director of telegraph who was present recently of the large of having an unauthorized order to the army, as well as strong denial, has not been released from custody.

Today's conflict authority of the executive to abolish the tobacco and alcohol monopoly, indemnify private stockholders, for loss of holdings, which becomes the property of the state, and from the monopoly, which is to be paid 14 per cent more, are to be to the payment of the interest on the English loan, which went to the enrichment of relatives and friends of Zelaya.

In action, the former of the army of all monopolies, and with tremendous business, sitting was ineptuous about Deputy Lucia Gomez, a adherent, who used the name of Zelaya, who was yesterday was spoken to the organization of further taxes, were cries of "Basta" "Out" and "Disgrace." Finally the temper and hurls, glared in the face of a member of the public guard, Guards called and ejected all except a delegation of thanks was presented to the Carnegie on the street of the city from the United States, which here quoting him said that \$20,000,000 to assassinate the district court today a lion

was made to annual a promissory note of \$60,000 in favor of Zelaya, on the ground that he obtained it under threats. A number of similar actions are in preparation.

**SOUTH AMERICANS REGARD ZELAYA AS A MARTYR**

Mexico City, Dec. 30.—Dr. Groesbeck Walsh, formerly acting United States consul at Corinto, Nicaragua, and now on leave of absence from the United States hospital at Colon, Panama, passed through here today. He said Zelaya was looked upon as a martyr by the people of Central America. Dr. Walsh said he knew that when Zelaya was in power he had caused to be intercepted consular reports, had muzzled the press and in many instances had "rubbed it into" Americans in Nicaragua. He says papers of Costa Rica are bristling with paragraphs such as "Down with the Yankees!" "We must stand together!" and "Zelaya is a martyr!" He says American consuls in Central America have never been backed up by the state department in Washington when they gave true reports of indignities heaped upon Americans there and that the Central Americans, knowing this, take advantage of it.

**HEARST'S PUBLISHERS MUST PAY FINE**

New York, Dec. 30.—The argument that a corporation, having no soul, could not commit a crime was lost today by the appellate division of the supreme court, which upheld the action of the lower court in imposing a \$2,000 fine against the Star company, publishers of the New York American, for libeling John D. Rockefeller, Jr.

In defending the suit, Clarence R. Shearn has argued that a corporation, having "neither soul, conscience, nor feeling, is incapable of entertaining a malicious and malicious intent, which is an essential element in criminal libel."

The court held that "it was once thought that a corporation could not commit a crime, but by slow degrees, and following upon the extension of the practice of organizing corporations for the purpose of avoiding the penalties of alleged acts, the courts have reached a different conclusion."

**UNCLE SAM'S COIN COUNTED.**  
Washington, Dec. 30.—To count coins and securities in the United States treasury it has taken a committee of four, supervising from 20 to 40 counting experts, almost two months. Upon the retirement of Charles H. Treat as treasurer it became necessary to count contents of the vaults for the incoming treasurer, Lee McClung.

Next Monday Mr. McClung will give Mr. Treat a receipt for \$1,259,001.75, 37 2-3, the exact contents of the treasury. Not a cent was found to be missing from Uncle Sam's pocketbook. It was the quickest count ever made by the treasury. The count included 156,621,317 silver dollar pieces.

## PLANNING FOR NATIONAL BOYCOTT

Of Combinations That Increase The Cost of Living and the Necessaries of Life.

**ANTI-TRUST LEAGUE'S WORK.**

It Is National Organization but Steps Will be Taken to Form State Ones.

Washington, Dec. 30.—Plans for a national boycott of those combinations that increase the cost of living were laid here tonight, when the National Anti-Trust league was launched.

Members of Congress are interested in the new league and immediate steps will be taken toward forming state organizations.

Then when prices soar, league members, by stopping the use of such articles or commodities as have gone above a certain level, will tend to put them back by refusing to furnish a market.

The plan was tried in Germany a few years ago and, according to a report, broke up a combine that had raised the price of coffee to an almost prohibitive point.

The meeting was informal, and no final organization was effected. It was agreed, however, that the crusade just beginning should go under the name of the National Anti-Trust league and that the organization should be non-political.

As soon as Congress reconvenes a permanent organization will be effected. Among the speakers tonight were Minnesota Leader Clark and Congressman McKinley of California.

The women of the United States will be taken in on equal terms with men and will have a voice in the campaign. A nominal fee will be charged members to cover the cost of mailing proclamations against articles of food that have been pushed too high in the market.

**CRAZY MAN THREATENS TO BLOW UP U. S. SENATE**  
Chicago, Dec. 31.—A letter to the Tribune from a writer signing the name "C. Hodges," threatening to blow up the United States senate with nitro glycerine, aroused the federal authorities last night and caused a hurried search throughout the city for the author.

"C. Hodges" wrote that physicians had given him six months to live, and that at first he had intended taking morphine to end his existence quickly. He changed his plans, he said, when he read an article charging that corruption existed in the senate and he determined to blow up the body with nitro glycerine and kill himself at the same time.

The letter was turned over to United States Dist. Atty. Edwin W. Sims, soon after it was received and he immediately called in Gen. James E. Stuart, chief postoffice inspector in Chicago.

It was decided that prompt action to discover the writer should be taken. "I do not believe the man who wrote that letter is insane," said Gen. Stuart. "The handwriting is that of a man of education and the dictation indicates that he is a man of intelligence."

**WHAT IS ICE CREAM?**  
Illinois State Food Commission Is Trying to Find Out.  
Chicago, Dec. 31.—"What is ice cream?" This query is likely to become as famous in Chicago as President's Taft's "What is whiskey?"

The newly appointed state food commission, with Dr. T. J. Bryan, state analyst, began their sessions here yesterday and ice cream and evaporated milk are the first two subjects to be considered.

The question to be decided is whether the frozen delight containing gelatin is "ice cream." Gelatin, say the manufacturers and their experts, does not harm the product, but on the other hand adds to its nutrition. Therefore, they wish to use gelatin as a preservative in ice cream, but do not wish to inform the public that they use gelatin.

**GAMBLERS DEFTY PUBLIC.**  
Chicago, Dec. 31.—Openly defying public sentiment in Chicago and the laws of Indiana, a syndicate of Chicago gamblers will open a pool room near Clark's Station, Ind., tomorrow. Katherine—"My, how provoked I am, Anty. You wouldn't dream this frock had once been white. Look at it now. I sent it to the laundress and it looks almost the color of weak coffee with milk in it."

**Anty Drudge—"It's partly your fault, my dear.** You're a college graduate, but you aren't educated until you know what is best for your clothes. If you had known enough to see that your white frock was washed with Fels-Naptha soap in cool or lukewarm water it would have been snowywhite. The Fels-Naptha way is the only method of washing to keep white clothes white without harming them."

Here's the easiest way that's ever been discovered to wash clothes—either in summer or winter.

For the white things: Wet the clothes, soap well with Fels-Naptha, roll and let soak for thirty minutes in cool or lukewarm water. Unroll, rub lightly, rinse and hang out to dry.

That's all; no boiling, no hard rubbing, no hot water.

This simple Fels-Naptha way of washing makes your clothes sweeter, whiter, cleaner than you can get them any other way.

And the clothes last longer because they are not weakened by boiling, nor worn by hard rubbing.
